Rewriting our future

Dedicated to Queen Elizabeth II's legacy

Supported by:

University of
BRISTOL

African
Union
NetT4Peace

With a focus on primary schools, we're empowering the global youth through:

➡ *empoweringly optimistic & edutaining **storytelling***
that reframes the harrowing future of climate change to inspire hope and action, rather than apathy.

"When skiing down a mountain, through a forest, one looks at the path through – not the trees. We know plenty about what will go wrong and why in regard to the climate challenge. **Here at Skori, we look at the path.**"

– Charles Davey, co-founder

2. Sustainability.
3. Community Building.

THE CHILDRENS' CLIMATE CALL

co-created with global schools for local impacts!

SKORI

Workshops

In school sessions where we remind students there is a lot to be optimistic about. We reframe the required societal changes as exciting opportunities for growth. We will also use these sessions to gather insights for our e-learning library.

E-learning edutainment library

A digital catalogue of stories, poems, animations, games and videos that teach a solution orientated approach to climate change and life skills. We hope to support teachers and staff in their climate change education whilst being as entertaining as Netflix.

Mobile Game

A flagship product that cements SKORI as a household name. We want to amplify indigenous voices, promote environmental custodianship and reform a connection with nature. We will have a gripping plot that involves exploring the world and hopefully incorporate AR like Pokemon Go.

OUR CORE VALUES

OPTIMISM

Based on dissertation research and extensive reading, using Utopia as Method is an effective basis for inspiring change. People must be hopeful for and imagine a future before achieving it.

INNOVATION

Entrepreneurship and innovation steers and drives change. Our team mainly consists of masters innovation students. We are some of the most equipped people on the planet.

EDUCATION

As Mandela said, education is the basis for change. We must reframe collective philosophy to inspire behaviour change. We are custodians of the planet, not owners.

GAMIFIED

A great way to inspire a love for education and to improve retention is through gamification.

GLOBAL

Our work represents the whole world. We believe in and preach global citizenship. We need collective action at a global scale to coordinate the most effective future for everyone.

THE CHILDRENS' CLIMATE CALL

**An amplified voice
of the youth**

**Too loud for decision
makers to ignore**

**School students submit
art depicting the future
they want**

**Honouring the
intergenerational
contract**

**We create a unified
website showcasing
the art**

**In collaboration with
Bala Books**

SUMMARY

THE CHILDRENS' CLIMATE CALL

PRIMARY

RE-WRITING OUR FUTURE

- Re-imagining the course of humanities future with critical storytelling.
- Solution orientated education.
- Co-created with schools.
- Inspiring the needed behaviour change.
- Workshops, E-learning & a mobile game.

SECONDARY

AMPLIFYING A COLLECTIVE YOUTH VOICE

- Collating a global youth voice that is too loud for decision makers to ignore.
- Honouring the intergenerational contract.
- Asking the youth to create art that depicts the future they want.
- As we host workshops and expand our school network we will ask for submissions.
- In collaboration with Bala Books.
